Friends,

I am proud to add Stars and Stripes to the list of distinguished Americans supporting a Memorial for Korean War Veterans.

The courage and sacrifice of those men and women who served in Korea has yet to be acknowledged by their country. In our history books and in the media the full story of the Korean War has yet to be told. The lessons and memories of our fighting there still remain unexplored. This Memorial campaign is bringing the nation's attention back to Korea.

You can depend on Stars and Stripes to cover this campaign from fund-raising, design competition, to the construction and dedication of the Memorial.

Send us your stories and pictures of participation in the war, your home-coming, and the present efforts of your local group in this Korean Memorial campaign.

As the nation's only weekly veterans newspaper we can give your work the kind of coverage which it deserves.

I look forward to working with each of you.

Warmest Regards,

Dan C. McCurry
Editor
